Hi Wendy hope you are well.
I have had a lot of support on the padel court plan and so wish for it to be heard by the council members some of whom have showed great interest in my idea.
I know what you said before regarding the conveyance document, however there are ways around this such as me not paying the council for the use of the land but maybe make a charitable donation instead.
Please can you put this forward and let me know when it will be heard.
Again if you wish me to put a presentation together for the meeting let me know.

From what I can see every day walking past the site, all three courts still get limited use and so I think a proper discussion should take place on what would be a great option for the town and surrounding areas.
It still is the fastest growing sport in the country and councils all over the UK are taking advantage of their courts that have limited use.
Please come back to me on this sooner rather than later.

Regards
