Rolf

One thing I'd like to know is what the operator issue with the recording is as in my recording you hear the laptop say recording so my guess is it's been deleted.

I think it's easy to say that the recordings are missing once you'd heard my recording as they were adamant in the meeting it was discussed.

Honestly I am challenging that explanation as it does honestly make the council even more suspicious of covering things up

Regards

Paul

Hi Paul
Emails are sending OK, I have been out all morning.

Yes I did speak with Wendy and Jackie yesterday,

Based on the feedback I have provided, Wendy agrees to update the draft minutes for approval at next meeting.

I learned there was an operator issue in saving the town council recordings on Zoom, meaning MoM's from several meetings have not been saved.

I plan to send an email to all councillors on planning committee explaining about the recordings and giving everyone an update about my meeting with Wendy and the minutes. I'm just waiting for some details from Wendy.

I mentioned that you were comfortable to have a face to face with Wendy and myself and I said I think it this would help 'clear the air' and help us all move on. I will progress this if you are still ok with it.

Regards
Rolf

I'm not sure if my emails are sending

Did you manage to speak with Wendy yesterday just wondering what was said

Firstly I haven't acquired a copy. It's a recording I made.

Huw asking for a copy has absolutely nothing to do with me so not sure what you are insinuating if you are but I'm pretty sure I know what others are thinking and can assure you that needs to stop as there has been a fair few assumptions of me just a shame no one dares ask me

I agree with you I think we need a face to face.

You are more than welcome to come to mine tomorrow morning as the recording is clear but being in an environment of a coffee shop or pub you wouldn't really hear it

Say about 11am

Are you really thinking the Town Council recording could be any different to the copy you have acquired ?

Interesting Huw has sent out an email this afternoon also asking for the Town Council Recording to be circulated to members of the Planning Committee .

I'll revert after speaking to Wendy (hopefully tomorrow) with a view to obtaining the Town Council's recording.

I think a face to face meeting to discuss what is really going on here will be helpful.

If tomorrow am does not work I can also make a tomorrow evening meet up in the George?

Best regards

Rolf

What are the chances of town clerk giving you the council recording so I can listen to theirs at the same time both should really be the same

Hi Paul
Ok. How are you fixed tomorrow morning?
Meet up for a coffee ?

Subject: Recording

Good evening

Can we arrange a day where I can meet with you and play you the recording.

I won't be forwarding it as I will be taking it up with the monitoring officer.

I have just played the recording to 100% confirm that the discussion that the clerk and Cllr monks say took place as I didn't want to look stupid and I confirm it 100% does not have that conversation on in the whole 8 minute meeting

Regards

Paul Francis
